

# So Far Away

## Social Distortion

I've sung the blues  
For every broken hearted lovesick dream for you  
I've paid my dues  
Workin' hard-sweat, blood and tears for you  
So far away, so far away, so far away  
So far away, so far away, so far away  
I've had it all  
And lost it all in one blackout summer night  
I want it back  
Well I just can't seem to get it right  
So far away, so far away, so far away  
So far away, so far away, so far away  
I've sung the blues  
For every broken hearted lovesick dream for you  
I've paid my dues  
Workin' hard-sweat, blood and tears for you  
So far away, so far away, so far away  
So far away, so far away, so far away
