

Godz

Meat Loaf

Why can't the Godz up in heaven assemble
An army of battleships, bombers, and minds
To lift up the good and make bad people tremble?
Things would then be better for the Godz
Godz and mankind! Why can't the Godz up in heaven assemble
An army of battleships, bombers, and minds
To lift up the good and make bad people tremble?
Things would then be better for the Godz
Godz and mankind!
In this country
In this country
A man with a dream needs luck
A man with a dream needs luck
Only if someone with power will help him
Only if someone with power will help him
Only if someone with power will help him
Can he make all his dreams come true? Why don't the Godz take a look at the earth again
And give all the children a world they desire?
Send soldiers and tanks to lift up all the holy ones
And attack all the others with cannons?
Cannons and fire?
Why don't the Godz take a look at the earth again
And give all the children a world they desire?
Send soldiers and tanks to lift up all the holy ones
And attack all the others with cannons?
Cannons and fire? Fire! Fire!
