

# Been to Hell

## Hollywood Undead

Advisory - the following lyrics contain explicit language:

Welcome to a city that'll bring you to your knees  
It'll make you beg for more, until you can't even breathe  
Your blindfold is on tight, but you like what you see  
So follow me into the night, 'cause I got just what you need  
We're all rollin' down the boulevard, full of pimps  
and sharks  
It's a motherfuckin' riot we've been dying to start  
You better grab a hold 'cause now you know you're falling apart  
You thought these streets were paved in gold  
But they're dirty and dark  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Welcome, welcome  
In the belly of the best, I'm a wolf  
amongst sheep  
At the bottom of the hill, but at the top of the street  
Above the boulevard, schoolyard, victim of deceit  
And you're running hard, but this wolf is always at your feet  
And you've seen it all before, but the wolf's  
outside your door  
And you're old enough to run, you ain't hiding anymore  
Another victim of the star spangled banner of the street  
Now you're in the world of the wolves  
And we welcome all you sheep  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Welcome, welcome  
You need to wake up and face it so  
you can taste my reality  
Now you're stuck in this place you hate

And you came here so happily  
Then it made you lose your faith  
And that's what fucked with your sanity  
Say goodbye to your soul and say hello to your vanity  
Hollywood is your friend, and the Undead are your family  
We'll take you to the edge, and turn your regret into agony  
And I'll never let you go, 'cause I know you'll come back to me  
I'm the reason you came here, I'm the American Tragedy  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Been to hell, I can show you the devil  
Down you fell, can't hold yourself together  
Soul to sell, down here you live forever  
Welcome to a world where dreams become nightmares  
Welcome, welcome, welcome  
Welcome to a world where dreams become nightmares  
Welcome
