

I Made Out With A Rockstar

Ke\$ha

I couldn't find someone to go
With me last night to the show
So I went alone
I was too young to get in
So I stood by the back door where the band goes in
That's when I saw him

Oh my god
Is that really you ben
I'd do anything to get in

So I made out with a rockstar
Last night at the slow bar
I'm givin up on you high school boys
But up on stage his blue eyes can see a willing fan
He's like a god he makes me weak
And his pick of the night was me
I made out with a rockstar yeah
I made out with rockstar
I made out with a rockstar yeah
I made out with a rockstar

I wasted too much precious time
Chasin stupid high school guys
They've had their last chance
I wasn't good enough for them
We'll I was good enough for ben to kiss last night
I almost died

He gave me his new CD
Got me backstage
I still can't believe

So I made out with a rockstar
Last night at the slow bar
I'm givin up on you high school boys
But up on stage his blue eyes can see a willing fan
He's like a god he makes me weak
And his pick of the night was me
I made out with a rockstar yeah

I made out with a rockstar
I made out with a rockstar yeah
I made out with a rockstar

I made out with a rockstar
Last night at the slow bar
I'm givin up on you high school boys
But up on stage his blue eyes can see a willing fan
He's like a god he makes me weak
And his pick of the night was me
I made out with a rockstar yeah
I made out with a rockstar
I made out with a rockstar yeah
I made out with a rockstar
Did you make out with a rockstar no
I made out with a rockstar
Did you make out with a rockstar no
I made out with a rockstar
