# The Ripper

## Sil Khannaz

Burn
Time kills, go ask Jesus
I'm done, makes no difference
Stare straight, stare at the sun
I'm done, makes no difference
Time takes us all
So why am I not just living for today?
Time takes us, time takes us all
Will I die right now?
I'm only seconds away, time takes us
Move on, gone forever
I'm done, makes no difference
Poison, time kills slowly
You're done, makes no difference
Time takes us all
So why am I not just living for today?
Time takes us, time takes us all
Will I die right now?
It could be seconds away, time takes us
Time will now be, time will now be
Time will now be the chopping block, leave my head
Time will now be the chopping block
So leave my head, leave my head, leave my head, head
Time kills, makes no difference
I'm done, makes no difference, makes no difference
Time takes us all
So why am I not just living for today
Time takes us, time takes us all
Will I die right now?
It could be seconds away, time takes us
Take you, time takes us now
