Neverend

Superheist

And the wheels revolved and the world evolved around us
Slipping through this chemistry, this apathy
And I can see the real truth up above, it comes in waves
Was in that note and all she wrote wasSave me from falling in this state I'm in
Catch me, I swear it'll neverend
Save me from falling in this state I'm in
Catch me, I swear it'll neverendAnd then the tables turned and the fire still burns inside me
Flaming through your legacy, your eulogy
And I can see the real truth up above, it comes in waves
Was in that note and all she wrote wasSave me from falling in this state I'm in
Catch me, I swear it'll neverend
Save me from falling in this state I'm in
Catch me, I swear it'll neverendSave me from falling in this state I'm in
(In this state I'm in)
Catch me, I swear it'll neverend
(I swear it'll neverend)Save me from falling in this state I'm in
(I swear it'll neverend)
Catch me, I swear it'll neverend
