Competition

Punk People

She's got no idea where you've been
No idea what you've been doin'
You've been living dangerous
You're trying to keep it just our secret
Psst pass it on, come on and pass it on
Psst pass it on, come on and pass it on
Goodness I like this
Mysterious mistress
Keepin' me hush hush
Try not to blush blush
I just can't stop this
It's risky business
Being you're mistress
Keepin' me hush
You're girlfriend's got competition
She's got competition
You're girlfriend's got competition
Goodness I like this being you're mistress
You're girlfriend's got competition
You're girlfriend's got competition
She's got completion
Someone's gotta be the one to tell her
that we got it going on
You're keeping me out all night long
We eat at fancy restaurants
You're giving me what your girlfriend wants
Somebody's gonna pass it on
Buying me new jewelry
We're holding hands back in the street
You better learn to be discreet
If you wanna keep it just our secret
Goodness I like this
It's risky business
Being you're mistress
Keepin' me hush

You're girlfriend's got competition
She's got competition
You're girlfriend's got competition

Goodness I like this being you're mistress
You're girlfriend's got competition
You're girlfriend's got competition
She's got competition
Someone's gotta be the one to tell her
that we got it going on
that we got it going on
She's got no idea where you've been
No idea what you've been doin'
In the bedroom
In positions
That you never knew existed
You try to keep it secret
You can try and try to keep it
It's risky business
Keepin' me hush
You're girlfriend's got competition
She's got competition
You're girlfriend's got competition
Goodness I like this being you're mistress
You're girlfriend's got competition
You're girlfriend's got competition
She's got competition
Someone's gotta be the one to tell her
that we got it going
Girlfriend's got competition
She's got competition
You're girlfriend's got competition
Goodness I like this being you're mistress
You're girlfriend's got competition
You're girlfriend's got competition
She's got competition
Someone's gotta be the one to tell her
that we got it going on
