

# The Remedy

## There For Tomorrow

Split decisions, fighting fixes  
I test ride my memory  
Tunnel vision, I give in  
And put an end to make shifting relief  
This game has got me shaking hands  
With my own enemies  
I see faces but none of them  
Not one believes in me  
And the end of the road  
I'll hate to say I told you so  
I don't need you to find resolve, oh  
'Cause when it's said and done down to one  
I'll hate to say I told you so  
And as your promises dissolve  
I'll get bragging rights  
You'll realize that from day one  
I always told you so  
Go on living making killings  
Off of all your broken dreams  
I'll stay in within the out  
And I bet you won't find one weak bone in me  
It's been a long time coming  
But no need for sympathy  
I made my mind, I'll spend my time  
Just making you believe  
And at the end of the road  
I'll hate to say I told you so  
I don't need you to find resolve  
'Cause when it's said and done down to one  
I'll hate to say I told you so  
And as your promises dissolve  
I'll get bragging rights  
You'll realize that from day one  
I always told you so  
I know this doesn't sound  
Like it's the best of me  
But it feels so good to know what I've got  
I found a remedy  
Found me a fix for all these broken memories

Something to cure the sick and suffering  
'Cause I did what I wanted to  
Rest assured, no more time to lose  
I found a remedy  
I don't need you to find resolve  
'Cause when it's said and done down to one  
I'll hate to say I told you so  
And as your promises dissolve  
I'll get bragging rights  
You'll realize that from day one  
I always told you so  
'Cause I did what I wanted to  
I told you so  
No more time to lose  
I told you so  
I found a remedy
