

Someday Soon

[Lindi Ortega](#)

I've been waiting all my days
For someone to carry me away
From this lonesome, lonely road
I've been on for so long I've been spending all my nights
On someone that just ain't right
And I wonder if I moved on
Would he notice that I'm gone Someday soon, I'll just walk away
A thousand miles from yesterday
I don't know when or what I'm gonna do
But I'm gonna do it someday soon There'll be blue skies and sunny days
Yeah, it's all gonna be okay
Even when the clouds roll in
They'll just roll back out again Someday soon, just wait and see
Something better is waiting for me
I don't know what but this much is true
I'm gonna find it someday soon Something's gotta give
How am I supposed to live
Wishing I was anywhere instead of going nowhere with you
I'm singing Someday soon, I'll just walk away
A thousand miles from yesterday
I don't know when or what I'm gonna do
But I'm gonna do it someday soon
Oh, I'm gonna do it someday soon
