

# Falling

## Live on release

When I met you you were eating ice cream  
When we first met you fell upon your face  
And now I can't get you outta my head  
No I, I can't get you out of me

[CHORUS]

I'm falling and I can't get up now  
I'm falling and I realize  
That you're the one for me  
And you have to be  
Falling, falling for me too

This feeling is screwing me up  
This feeling, I don't want it ever to stop  
And now I can't get you outta my head  
No I, I can't get you out of me

[CHORUS] x4
