Louder Than Love

TKA

[Incomprehensible] for me baby
[Incomprehensible] for me babyRemember when we said goodbye
I wiped my tears, you didn't cry
We both said things, we didn't mean
Reaching for the hope
But caught between the screamsAnd I would try to calm you down
But you wouldn't listen
And now I find you're not around
And it's your love I'm missin'Louder than love
(Louder than love)
That's what we were
We were louder than love
And we couldn't make things betterLouder than love
(Louder than love)
That's what we were
We were louder than love
And we couldn't stay togetherIf we could both go back in time
Back to the days when you were mine
We vowed to try but who's to say
That the love we shared could ever be the sameBut maybe someday we'll both learn
Just how fragile love is
The mind forgets but the heart still burns
As it longs for your kissLouder than love
(Louder than love)
That's what we were
We were louder than love
And we couldn't make things betterLouder than love
(Louder than love)
That's what we were
We were louder than love
And we couldn't stay togetherThrough the things we said
And the dreams that we shared, love stayed
(We never let it fade)
But we both went too far
We're both left with the scars of love(Oh)
Now we must go
Our separate ways, my love, ohLouder than love
(Louder than love)
That's what we were

We were louder than love
And we couldn't make things betterLouder than love
(Louder than love)
That's what we were
We were louder than love
And we couldn't stay together
