# Don't Look Below

## Tahiti 80

You taught me how to do
All the things now you seem
To be a part of me
I know it's just part of the game
To go back and start again
Still it ain't so easyIt's inside me
When, when you're ready to
I'll come up to you
I'll take you for a walk with me
To a place that's not real
Where we can heal
All the things inside you and me, hmm, ho
All the things inside you and meIt's hard to tell where this road will go
No matter what they say
Don't look below
It's hard to tell where this road will go
No matter what they say
Don't look below
It's hard to tell where this road will go
No matter what they say
Don't look belowWhat's goin' on?
I don't know what is right or wrong
What's goin' on?
I don't know what is right or wrong
What's goin' on?
It's hard to tell where this
I don't know what is right or wrong
Road will go
What's goin' on?
No matter what they say
Don't look below
Don't look below
Don't look below
Don't look below
