

All For Angela

Forever the Sickest Kids

You're not about to leave home
I'll carry you back to where you not belong
5605 Rowlett Drive
Safe in the comfort of this family And lately you've been different
Get out, try, experience life
And we'll forget how we said hello
Say our farewell hello
Say our farewell hello
Say our farewell hello Come on, come on, give it a chance
And I guess I might be the only one to get it done
Come on, come on, give it a chance
And I guess I might be the only one to get it done There's lights in the back where you came around
And I said to you, darling
You're not even coming down
To where we left
And the sheets were white as they've always been
Wait tonight
I said no, you said yes
And you're right
God, you're always right
Always, you're always right
Oh, you're always right
Oh, oh, you're always right
