

Clear Water Blues

Alabama

Clear water blues, thinkin' of you
Sittin' here fishin', catchin' a few
Spendin' my days just tryin' to lose
These clear water blues Clear water blues driftin' along
Nowhere to go, now that you're gone
My lonely heart don't know what to do
With these clear water blues Lookin' out across the ocean
Blue is all I see
And it seems like no matter how far I go
Your memory just won't set me free Clear water blues won't leave me alone
Keeps on remindin' me why you're gone
My reflection is showin' a fool
In these clear water blues
