

Pull Me Under

We Are Monroe

Verse:

you hide it all so well
you lite the fire and walked off as it went
it's getting all too hard
to turn away from all the wreckage left behind

Pre-chorus:
So tell me what it's like
pull me under, pull me under

Chorus:

I had my share of you
you had it all planed out
you had it in for me
Well I've come down so let me out

I had my share of you
you had it all planed out
you had it in for me

Verse:
you sold it all so well
you sold the part and stuck around to flaunt it as you
Pre-chorus:
tell me what it's like

pull me under, pull me under
my eyes go blind as we step into your mind
pull me under, you pull me under

Chorus:

I had my share of you
you had it all planed out
you had it in for me
Well I've come down so let me out

I had my share of you
you had it all planed out
you had it in for me
