## I'm Ready

## **Tevin Campbell**

```
Yeah baby
          Ah, come on Baby, it was uncool to love me
               Then leave me standing here now
                      Without a goodbye
             And maybe I am the fool you call me
              'Cause I'll be here standing waiting
                To hear you say to meI'm ready
                    (You know I'm ready)
                         To love you
                         (To love you)
                           Forever
                          (Forever)
                        Hey love, now
             Come love me forever moreI'm ready
                    (You know I'm ready)
                         To love you
                         (To love you)
                           Forever
                          (Forever)
                        Hey love, now
Come love me forever moreSometimes, when I'm alone I feel sad
              I know you'll leave me once again
                      And take my pride
          And maybe I am the fool you call me, yeah
              'Cause I'll be here standin' waiting
             To hear you say to me, yeahI'm ready
                    (You know I'm ready)
                         To love you
                         (To love you)
                           Forever
                          (Forever)
                        Hey love, now
           Come love me forever moreSee I'm ready
                    (You know I'm ready)
                         To love you
                         (To love you)
                         Forever baby
                          (Forever)
```

Hey love, now

```
Come love me forever moreAnd once again I'll be right here
                Waiting to share your love
               But I hope this time for once
          We'll forever mend it upSee I'm ready
                  (You know I'm ready)
                      To love you
                      (To love you)
                         Forever
