

Baby It's The Weekend

Blazin' Squad

Yo, yo, let's go
Now it's Friday, I've been waiting
I've spent all week working nine to five
I call my ladies who call their fellas
So we can all meet up after dark
Tonight I wanna have some fun girl, some fun girl
Tonight I wanna party all night long
I wanna see you sweat and maybe get some
But first I wanna see you all get down
Clap your hands, shake your ass
Lose yourself 'cos baby it's the weekend
Grab your man, fill your glass, get your dance on
Baby, it's the weekend
Work your body to the left with me then
Slide your body to the right with me
Baby, clap your hands, shake your ass, lose yourself
'Cos baby, it's the weekend
No buts or maybe's, baby
I just like tight butts on ladies
Who play rough for ages and nuff love
Comes in stages that's the way it is
Iced out feel the blitz blacked out be me whips
Outside where the chicks inside with the click
Me and shorty sip then shortly after we'll meet
After all it's the week's end nightfall
I'm creeping baby girl reachin' so maybe I'll just leap in
Clap your hands, shake your ass
Lose yourself, 'cos baby it's the weekend
Grab your man, fill your glass, get your dance on
Baby, it's the weekend
Work your body to the left with me
Slide your body to the right with me
Baby, clap your hands, shake your ass, lose yourself
'Cos baby, it's the weekend
Tonight I wanna have some fun girl
You know I keep it real but I've still got time for my peeps
My eyes never shut the boy that never sleeps
I know the man's still be hatin' but the ladies
Still craving but you'll always know when Reepa's in the club

It's raising I'm made and I have it
All these women always seem to be down
For the loving to me it's usual, it's nothing
Clap your hands, shake your ass
Lose yourself, 'cos baby it's the weekend
Grab your man, fill your glass get your dance on
Baby, it's the weekend
Work your body to the left with me
Slide your body to the right with me
Baby, clap your hands, shake your ass, lose yourself
'Cos baby, it's the weekend
Clap your hands, shake your ass
Lose yourself, 'cos baby it's the weekend
Grab your man, fill your glass, get your dance on
Baby, it's the weekend
Work your body to the left with me then
Slide your body to the right with me
Baby, clap your hands, shake your ass, lose yourself
'Cos baby, it's the weekend
