

# Radiate

Tricia

Storm clouds in the sky  
Perfect weather said goodbye  
And you ask me am I okay  
Isn't it obvious  
Looking like I'm such a mess  
Not gonna let it ruin my day  
With glitter sparkle rain boots  
Ready to jump into  
Bring on the hurricane  
Whatever comes my way  
Not gonna let the rain  
Let the rain bring me down  
You make sunshine  
And push the clouds out the way  
Not gonna let the rain  
Let the rain bring me down  
You can be my sunshine  
And we can radiate  
Oh, oh, oh  
You should really know by now  
This would never bring me down  
But still you ask me am I okay  
So let me make it obvious  
Even if I'm still a mess  
I'll be standing with a smile on my face  
Waiting on a rainbow  
Waiting while the wind blows  
With my polka dot umbrella, ella  
Not gonna let the rain  
Let the rain bring me down  
You make sunshine  
And push the clouds out the way  
Not gonna let the rain  
Let the rain bring me down  
You can be my sunshine  
And we can radiate  
Oh, oh, oh  
Oh, oh, oh  
And when the sun goes down You radiate

And when the rain comes down You radiate  
And when the sun goes down You radiate  
And when the rain comes down You radiate  
And when we all fall down You radiate  
And when we hit the ground You radiate  
Not gonna let the rain  
Let the rain bring me down  
You make sunshine  
And push the clouds out the way  
Not gonna let the rain  
Let the rain bring me down  
You can be my sunshine  
And we can radiate  
Not gonna let the rain  
Let the rain bring me down  
You make sunshine  
And push the clouds out the way  
Not gonna let the rain  
Let the rain bring me down  
You can be my sunshine  
And we can radiate  
Oh, oh, oh
