Everything Is Under Control

Islands

Don't have much time
We'll know when they find us,
Triangulate,
Shine their light on usThey say
"everything is under control, so climb out from under your hole"This nightmare
Might scare some of you
And truth be told
These dreams are coming trueBut
Everything is under control
Don't climb out
From under your holeAnd i'm in control
And i'm in control
Under controlI'm in control
I'm in control
Under control
