

Everything Is Under Control

Islands

Don't have much time
We'll know when they find us,
Triangulate,
Shine their light on us They say
"everything is under control, so climb out from under your hole" This nightmare
Might scare some of you
And truth be told
These dreams are coming true But
Everything is under control
Don't climb out
From under your hole And i'm in control
And i'm in control
Under control I'm in control
I'm in control
Under control
