

# Where I Go (miles To Go)

**Jessica Simpson**

When I can't see your face  
Feel your embrace (feel you)  
I know your out there baby thinkin' of me  
    I just wanna be  
    Just wanna be  
I wanna be with youI think of what I can do  
    I think of you  
    I think of the day  
    when I hear you say  
"No matter where I go you'll be here"  
    Miles to go when your not here  
    And I'll be there  
    Where I go where you are  
And it'll be miles to go when your not here  
    Where I go  
Miles to go where you'll be, and I'll be standin' smillin' at you again  
No matter where I goWhen I go where you are in the sky  
    I'll be standin there and I'll look up and wonder why  
    Why'd you go from me?  
My love, tell me why when I see you again and we'll be  
    By the sea  
    I'll draw a heart for you in the sand  
But baby, it don't matter where we are, sea or land[Repeat chorus twice]I no (no, no no)  
    I'll never forget those days  
    When we were together  
    We'll be
