

Love Is The Answer

Weezer

There will come a day when we transcend our pain
Until that day take it easy on yourself Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the world [Foreign content]
[Foreign content]
[Foreign content]
[Foreign content] There will come a day when we can finally rest
Until that day take it easy on yourself Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the world Brothers and sisters I know you try so hard sometimes
You're gonna find your happiness inside [Foreign content]
[Foreign content]
[Foreign content]
[Foreign content] Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the world In the world, in the world
In the world, in the world
In the world, in the world
In the world, in the world Love is the answer
You have got to trust in the world
