

# Tell Me

[Sara Evans](#)

Come and tell me something new about you, baby  
'Cause I've been wondering if there's something I can do for you  
You and me, we may not always agree on the little things  
But I am open, always hoping, you'll come tell me  
I have loved you from the moment that you touched me  
Through the hard times through the sunshine  
I have loved you  
So come lay down, let's be found  
Sing me a love song  
I wanna stay right here in your arms through the night  
I don't wanna be selfish  
I wanna give you anything you want from me, so tell me  
Put your heart out  
Lay it all out on the line  
Let me take it  
While we're making love tonight  
You're the one thing in my life  
That stays the same through the seasons  
Everlasting, never changing  
You're the one thing and all I ask is don't, don't hold back  
Sing me a love song  
I wanna stay right here in your arms through the night  
I don't wanna be selfish  
I wanna give you anything you want from me, so tell me  
I don't wanna be selfish  
I wanna give you anything you want from me, so tell me
