

She's Beautiful

Wheesung/Wheesung

Have you ever seen
A prairie wind make a wave
 On a wheat field
 Bringing needed rain
 Have you ever seen
 A mama stop a baby's cry
 With just the touch
 And a whisper of his name
 When she looks at me
 That's what I see
 She's beautiful like that
Like a winter rose, snow on the ground
I was blessed the day I found her
 I'm one lucky man
'Cause the more I know, the more I need her
 The more I love, the more I see
 Her heart is a shining star
 She's beautiful like that
 Have you ever seen
 A purple sky, sun coming up
 Bringing new life
 To everything it shines on
 Have you ever seen
 A couple after fifty years
 Laughing and holding hands
 Still going strong
 Well, the reason why
 I'll love her 'til the day I die
 She's beautiful like that
Like a winter rose, snow on the ground
I was blessed the day I found her
 I'm one lucky man
'Cause the more I know, the more I need her
 The more I love, the more I see
 Her heart is a shining star
 She's beautiful like that
 The sound of a church bell
 The road that leads back home
 An unspoken promise

You'll never be alone
She's beautiful like that
Just like a winter rose, snow on the ground
I was blessed the day I found her
I'm one lucky man
'Cause the more I know, the more I need her
The more I love, the more I see
Her heart is a shining star
She's beautiful like that
She's beautiful like that
She's beautiful like that
