

# Shadow Box

## Bob DeVos

Oh, here we go again  
It's time for the same arguments about  
    About that and a little bit of this  
I love you dear but I wanna spend this timeWhy do you do this to me?  
    I just wanna speak  
    Everything starts to come apart when  
When it gets too deep, oh, noWe were laughing just a minute ago  
    Just laughing and enjoying the show  
    You say one thing and what do you know?  
It's back to the mats and here we go againWhy do you do this to me?  
    I just wanna speak  
    Everything starts to come apart when  
When it gets too deepI want my shadowbox  
    I want my shadowbox  
    I want my shadowbox  
I want my shadowboxI want my shadowbox  
    I want my shadowbox  
    I want my shadowbox  
I want my shadowboxI want my shadowbox  
    I want my shadowbox  
    I want my shadowbox  
I want my shadowboxI want my shadowbox  
    I want my shadowbox  
    I want my shadowbox  
[Incomprehensible]All you've got is such a bickery mind  
    It's dark and scary and half the time  
    I'm not sure if I'm gonna fall in the cracks  
And here we are, all right back againWhy do you do this to me?  
    I just wanna sleep  
    But everything starts to come apart when  
    When it gets too deep, oh, no
