One Little Kiss (Never Killed Nobody)

Jake Owen

I saw your number on my phone,
I said yeah I'm here alone.
I saw the lights, opened the door before you rang my bell
Hey how ya been? And you leaned in and I just told myselfOne little kiss never killed nobody,
One little drink never wrecked no party.
Thought we were over baby, but you kept getting closer baby.
One little touch never broke no heart girl,
But I always wanna finish what you start girl.
Now your gone and it's hitting me,
Like a bullet and it's hard to breath,
One little kiss never killed nobody, but me.Ain't goin' out, ain't getting drunk
Don't need a shot to get messed up
I'm thumbing through pictures of you replaying our last night
Thought I'd be fine to see you one more time, yea rightOne little kiss never killed nobody,
One little drink never wrecked no party.
Thought we were over baby, but you kept getting closer baby.
One little touch never broke no heart girl,
But I always wanna finish what you start girl.
Now your gone and it's hitting me,
Like a bullet and it's hard to breath,
One little kiss never killed nobody, but me.Right here, they said I never would have listened when you whispered in my ear,
Last night when you said "Baby it's alright"One little kiss never killed nobody,
One little drink never wrecked no party.
Thought we were over baby, but you kept getting closer baby.
One little touch never broke no heart girl,
But I always wanna finish what you start girl.
Now your gone and it's hitting me,
Like a bullet and it's hard to breath,
One little kiss never killed nobody, but me.
Nobody but me
Nobody but me
Nobody but me
Nobody but me
