

Thanks Again

[Willie Nelson](#)

Thanks for what little love you gave to me
And thank you for my brief escape from misery
I searched and found Heaven and then lost it again
But you were mine for a little while so thanks again I'm not sorry for giving all my love to you
And if they ask if I still love you I'll have to say I do
My heart was dead and you've made it live then die again
But you were mine for a little while so thanks again My reason for existing is now revealed
I'm just here to show the world how blue a man can feel
My heart was dead and you've made it live and die again
But men may learn from my mistakes so thanks again
