With God

Salvador

Looks like stormy weather forever
And you'll never see the light of day
Paul and Silas kept on singing, believing
Their deliverer was on the way for they knewWith God, I'm protected
With God, I'm set free
For they knew with God
None shall harm me with GodLooks like stormy weather forever
And you'll never see the light of day
Three times that day Daniel knelt and prayed
Oh not afraid, of the consequences he might face
And he criedWith God, I'm protected
With God, I'm set free
With God, none shall harm me
With GodThe Lord is my shepherd I shall not want
(I shall not want)
He's my strength, He leads me on
I walk through the valley I'm not afraid
He's there, He is thereFor with God, I'm protected
For with God, I'm set free
For with God, none shall harm me
With God
