I play this game closely

For the bread and butter huh!

Yeah they try to toast me

I'm married to the game

But the game don't love me

Hey don't leave me in a heartbeat

That's why I'm cold-blooded

When I say I love you,I mean it deeply

I can't see life without you living with me

And if you love someone I know you feel me

When I say before they take you they want to kill me

I'm talking they gonna have to army marine navyseal me

Yeah the world knows Pitbull babe

you know the real me

I play any hand that deal me

So tell that dealer he gon' have that deal with me

even when you don't I'mma hunt you like a Chris Reber

time out final fall!  
So til' the sky comes crushing down  
World falls apart  
'til death do us part  
You're my heart for sure![Chorus :][Ahmed Chawki]
