

# Fire Girl

## The Brave New World

I loved you when it was alright  
I'll love you when it all goes wrong  
I'll love you when my eyes are open  
I'll love you when my eyes are gone Fire girl, say you will  
Fire girl, say you will I have no time to watch TV  
Yours is the face that interests me  
I loved you when you lost your raincoat  
I'll love you when you lose your fear Fire girl, say you will  
Fire girl, say you will Pockets full of rain  
Bewildered by this change  
Underneath the sky  
I just want to fly Fire girl, say you will  
Say you will, fire girl I'm so lonely  
So just, just do it  
Just do it, just do it  
Fire girl, say you will  
I got a pocket full of rain
