

The Going

[Hayley Reardon](#)

Do you feel it in your airport sleeping
Your backseat dreaming
You find that pretty silence that breathes when
You start to feel the music behind you like movie
Only movement can send you dancing
With the magic you forgot you still need
And oh, we go down
We come back up
Oh we go down
We come back
And oh, we go down
We come back up, we come back up
And it's well worth knowing
Why it is that the going get going
Does it hit you in your bones like seasons
Your finger ache with reasons
Why its getting too still here to breathe when
You're face to face with your life for a second
But then you feel like the carpet again
And I don't blame nobody for running
I owe the going my best defense
Chorus
The sun don't come up
The morning after he gets wasted
We can't all wait on the light
Some of us have got to chase it
Chorus
