

# Kill Each Other/Live Forever

## Scars on Broadway

I am the one that's calling inside of your brain  
I am the one that makes you feel all the shame  
Never mind my name We don't wanna believe  
That the world can still move on  
We don't wanna believe

That the sun can still shine on If we gonna kill each other, how we gonna live forever?  
If we gonna live forever, how we gonna kill each other? I am the one that's calling inside of your brain  
I am the one that makes you feel all the shame  
Never mind my name We don't wanna believe  
That the world can still move on  
We don't wanna believe

That the sun can still shine on If we gonna kill each other, how we gonna live forever?  
If we gonna live forever, how we gonna kill each other? If we gonna kill each other, how we gonna live forever?  
If we gonna live forever, how we gonna kill each other? We don't wanna believe  
That the world can still move on  
We don't wanna believe  
That the sun can still shine on We don't wanna believe (ooh)  
That the world can still move on  
We don't wanna believe  
That the sun can still shine on I am the one that's calling inside of your brain
