

Don't Wanna Be

[Xenia Rubinos](#)

I rule this place with a golden fist
I don't play but to keep you open
Hide a little sliver of this feelin in the mist
I won't play but to keep you openBaby where you're not. I don't wanna be
Baby where you're not, I don't wanna be
Baby where you're not, I don't wanna be
Tellin you right now what you meanI've got things to make your love grow thicker
I'm on planes that make your headspace bigger
All my stories make your love so sick
make your love heartsick
Make you love me love me love me
Wherever you goBaby where you're not, I don't wanna be
Baby where you're not, I don't wanna be
Baby where you're not, I don't wanna be
Tellin you right now what you meanI've got things to make your love grow thicker
I'm on planes that make your headspace bigger
All my stories make your love so sick
make your love heartsick
Make you love me love me love meGive it away give it away
let it be said
let it be written
let it be thought
let you be bought
where you gon go when they give you the deal
Give it away give it away
let it be said
let it be written
let it be thought
let you be bought
where you gon' go when you're going where you're notBaby where you're not, I don't wanna be
Tellin you right now what you meanI've got things to make your love grow thicker
I'm on planes that make your headspace bigger
All my stories make your love so sick,
make your love heartsick
Make you love me love me love meAhh love
Don't be afraid of yourself, don't
