Every Day

Joy Williams

Sometimes life is like a roller coaster, flying away
I get caught up simply, just surviving from day to day
But in the midst of all the lists to do
I need some help to change my point of view

Every day I'm giving you everything
Every thought, every word, every song I sing
It ain't no matter what life may bring, I lay it down

'Cause every day you make sense of me
In the midst of my insanity
Give me hope, give me love, give me strength
Make me free, every day of my life

If I love you with my heart, my soul, my mind
Then my life has found a new direction, it was never mine
'Cause when my heart is truly fixed on you
I find meaning in the things I do

Every day I'm giving you everything
Every thought, every word, every song I sing
It ain't no matter what life may bring, I lay it down

'Cause every day you make sense of me
In the midst of my insanity
Give me hope, give me love, give me strength
Make me free, every day of my life

Not simply just surviving
There's so much more I'm finding
Than living life so blinded and confused

'Cause where I find my freedom
Is serving at God's feet and I'm listening, searching
Just waiting, working, every, every day

Every day I'm giving you everything
Every thought, every word that I sing
It ain't no matter what life may bring, I lay it down

Every day I make sense of me
In the midst of my insanity
Give me hope, give me love, give me strength
Make me free, every day of my life
