Roll It Over

Oasis

I can give the hundred million reasons
To build a barricade
Blame it on the changing of the seasons
The thoughts that I conveyDoes it make it alright?
It doesn't make it alrightTo roll it over my soul
Leave me here
Roll it over my soul
Leave me hereLook around at all the plastic people
Who live without a care
Try to sit with me around my table
But never bring a chairDoes it make it alright?
It doesn't make it alrightTo roll it over my soul
Leave me here
Roll it over my soul
And leave me hereTo roll it over my soul
Leave me here
Roll it over my soul
Leave me hereTo roll it over my soul
Leave me here
Roll it over my soul
Leave me here
