

# Roll It Over

## Oasis

I can give the hundred million reasons  
To build a barricade  
Blame it on the changing of the seasons  
The thoughts that I convey Does it make it alright?  
It doesn't make it alright To roll it over my soul  
Leave me here  
Roll it over my soul  
Leave me here Look around at all the plastic people  
Who live without a care  
Try to sit with me around my table  
But never bring a chair Does it make it alright?  
It doesn't make it alright To roll it over my soul  
Leave me here  
Roll it over my soul  
And leave me here To roll it over my soul  
Leave me here  
Roll it over my soul  
Leave me here To roll it over my soul  
Leave me here  
Roll it over my soul  
Leave me here
