

You're All the Boogie I Need

Teena Marie

You make me feel like dancin' all night long
You flip my light switch and you turn me on
You shake me, earthquake me
You're all the boogie I need I'll slip into a sexy negligee
You know the kinda games I like to play
Gimme a kiss, I'll be your dish
You're all the boogie I need You're all the boogie I need
Come on and dance this one with me, baby
You're all the boogie I need
You can get your sweet, sweet lovin' from me, baby With your unique physique you make me feel
The things I felt impossible are real
You sweet beau, can't say no
You're all the boogie I need Baby, I got the urge to do the unknown
The kinda things that mama banned in home sweet home
I need your touch, let's munch a bunch
You're all the boogie I need You're all the boogie I need
Come on and dance this one with me, baby
You're all the boogie I need
You can get your sweet, sweet lovin' from me, baby Get it from me, baby, hey, aah
You're all the boogie I need
I love you boogie child come on
Let's dance a while, baby
