

Swim Seagull In the Sky

Novembre

Speechless

Unreal

Drowning in an abyssal silence Slowly moving through this immensity

I fly, swimming in this darkblue sky

It's cold, I'm scared and besides rust

Even ice covers these doors God knows hoe I'd be awake now

God knows how my eyes would tear now

God knows how I wouldn't lose my way

God knows how scared I am

How the seagull would pass away Swim seagull in the sky
