

# Welcome To The Church Of Rock And Roll

## Foxy Shazam

So what's the plan, brother man?  
We're waiting on your que.  
There's nothing new, to listen to,  
we heard it through and through.  
We know you're playing the best you can,  
The truth is we don't give a damn.  
Sing it!  
Chorus:  
Welcome to the church of rock and roll [x6]

Your music sucks, including us  
It's time we clear our name.  
If one of you, can sing a tune,  
We urge you too to do the same.  
Led us suckers, a flock of sheep,  
I'll be your shepard, follow me.

YEA!

[Chorus repeated]
