Map of the World

Sebastien Grainger

Well you know there's a place for the ones who were played off
And a channel for the stars who we made and played out
Well every man and every woman has a shot to be on time.
Why don't you get up and dance?
There's a place for you and me.I've never seen a map of the world and wondered where i fit inside.We can find a place for us where we both can dream.
And i know i found someone i can lean on.I don't remember things that you said, it's never been a strength of mine.
I've never seen a map of the world and wondered where i fit inside.
I don't wanna die alone, there's a fabric on the other side.
I don't believe we die alone, there's a light where we can shine a while.Let's stay together for a long, long time.
I've got a million friends with the same problems as you.
I've been around, i'm coming home.Sound of the street, son of the night
He's through sleeping around, jumping through windows
And feeling around for his watch or his wallet.
He's a man about town, so you better just watch it.
