## The Special A.K.A.

AC/DC

Back in Black

Given The Dog A Bone

She take you down easy

Going down to her knees

Going down to the devil

Down down to ninety degrees

She's blowing me crazy

Till my ammunition is dry

She's using her head again

She's using her head

She's using her head again I'm just givin' the dog a bone She's no Mona Lisa

She's no Playboy star

But she'll send you to heaven

Then explode you to Mars She's using her head again

She's using her head

She's using her head again I'm just givin' the dog a bone

She got the power of union

She only hits when it's hot

And if she likes what you're doing

She'll give you alot

(Given everything she got) I've just given the dog a bone
