Coffee and Cigarettes

Chester Gaylord

Wake up, take your pills dear
I know this time of year ain't right for you
You came with a sickness
Shot down back in Christmas kamikaze rain

And I'm sure you've lost that weight again
And I'm sure the pills keeps pouring in
Like smoke that falls, it's caving into you
So put me on a plane and fly me to anywhere
Put me on a plane and fly me to anywhere
Put me on a plane and fly me to anywhere with you
With you

One night when you woke up
You bled til you spoke up
Oh, this ain't pretty dear
With clocks, watch the time go
Til spring, when the sun can finally be free

And I'm sure you've lost that weight again
And I'm sure the pills keeps pouring in
We'll scream at night to make it go away
So put me on a plane and fly me to anywhere
Put me on a plane and fly me to anywhere
You should put me on a plane and fly me to anywhere but you
But you
But you

We'll scream at night to make them go away
So put me on a plane and fly me to anywhere
Put me on a plane and fly me to anywhere
Put me on a plane and fly me to anywhere but you
But you
But you
But you
