

# Beyond Belief

## Epica

Wisdom, knowledge, scienceDevelops, always, better, faster

This is the final endA voice in the wilderness

Fights a futile war

Because the strong are deaf

More so then beforeMassive disregard

Shows what to expect

Scars on top of scars

Racing toward a future we don't haveFear is taking over me, there is nothing I can seeThe Future is as certain

As life will come to an end

When time feels like a burden

We struggle with our certain death

Wisdom, knowledge, scienceDevelops, always, better, fasterWe have to guide ourselves

For we cannot stand

One more false pretence getting out of handNow fear is the driving force

Taking over us and finding out this source

May turn out to be too much to bearFear is taking over me, there is nothing I can see

How could this have come to beThe Future is as certain

As life will come to an end

When time feels like a burden

We struggle with our certain deathWisdom, knowledge, scienceDevelops, always, better, faster

Defeats us

Science, knowledge, wisdom

Destroys us, always, ever, faster

This is the final endThirteen moons

The path to walk

Thirteen moons

The path to talk

Restore all that belongs to usThirteen moons

The way to speak

Thirteen moons

Is what we seek

Restore all that was left behind

The Future is as certain

As life will come to an end

When time feels like a burden

We struggle with our certain death

The Future is as certain

As life will come to an end

When time feels like a burden

We struggle with our certain death  
    Wisdom, knowledge, science  
    Develops, always, better, faster  
        Defeats us  
    Science, knowledge, wisdom  
    Destroys us, always, ever, faster  
        This is the final end
