

# Movin' On

## Andrew Gregory

(Hank Snow)

That big eighteen-wheeler, rollin' down the track  
Means your true-lovin' daddy ain't comin' back  
    'Cause I'm movin'on, I'll soon be gone  
    You were flyin' too high, for my little old sky  
        So I'm movin' on  
    That big loud whistle, as it blew and blew  
    Said hello to the southland, We're comin' to you  
        And we're movin' on, oh, hear my song  
        You had the laugh on me, so I set you free  
            And I'm movin' on  
    Mister fireman, won't you please listen to me  
    'Cause I got a pretty mama in Tennessee  
        Keep movin' me on, keep rollin' on  
        So shovel the coal, let this rattler roll  
            And keep movin' me on  
    Mister Engineer, take that throttle in hand  
  
    This rattler's the fastest in the southern land  
        To keep movin' me on, keep rollin' on  
        You gonna ease my mind, put me there on time  
            And keep rollin' on  
        I've told you baby, from time to time  
        But you just wouldn't listen or pay me no mind  
            Now I'm movin' on, I'm rollin' on  
        You've broken your vow, and it's all over now  
            So I'm movin' on  
    You've switched your engine, now I ain't got time  
        For a triflin' woman on my main line  
    Cause I'm movin on, you done your daddy wrong  
    I warned you twice, now you can settle the price  
        'Cause I'm movin on  
        But someday baby, when you've had your play  
    You're gonna want your daddy, but your daddy will say  
        Keep movin' on, you stayed away too long  
        I'm through with you, too bad you're blue  
            Keep movin' on
