

Chasm

Flyleaf

Break up already, wake up now
Walk away, take it all back now
Don't be quick to lick the scab off
You're spitting in his face with the rest of them Break up already, wake up now
Walk away, take it all back now
Don't be quick to lick the scab off
You're spitting in his face with the rest of them Please, give me something
I'm so thirsty, I'm so thirsty
Oh please, let me warn them
Don't you come here, don't bring anyone here The chasm isn't fixed yet
Take this water, drinking ever deeper
Living water, the chasm isn't fixed yet
Take this water, drinking ever deeper
Living water Please, give me something
I'm so thirsty, I'm so thirsty
Oh please, let me warn them
Don't you come here, don't bring anyone here Please, give me something
I'm so thirsty, I'm so thirsty
Oh please, let me warn them
Don't you come here, don't bring anyone here
