A Beautiful Song

Nazz

I wanted to write you
A beautiful, beautiful song
I wanted to write you
A beautiful, beautiful song
A beautiful songThe kind that makes your memory
Go sailing through the window, like in a movie
And fly away, a million miles into space
And look down and look down on the lights of the world
Like people were as nice as the sight of it allJust you, I wanted to sing you
A beautiful, beautiful song
I wanted to sing you
A beautiful, beautiful song
A beautiful songBut you know what a cynic I am
And my voice isn't that good anyway
So all I can do is rave on
So all I can do is rave on
