

# No Soul, No Fear

## Noise Unit

Controlling  
our memories  
distant, distant worlds  
the blindfold  
placed around your head  
indifferent tension cutsSubconsciously  
it shuts them out  
your eyes are closed  
you start to shoutFeeling  
it leaves no clues  
human factor  
point of view  
A shroud of hurt  
it masks a lie  
shadows decieve  
the naked eyeFeel from within  
forever after  
here from withinWe have no soul  
we have no fear  
the naked eye  
creatures of fearWe seem to know  
you have no way  
your point of view  
we'll never see  
A shroud of hurt  
it masks the lie  
shadows deceive  
the naked eyeHere from within  
forever after  
effects so criminal  
here from withinWe have no soul  
we have no fear  
the naked eyeYour murdered brainsShrouded hurt  
it masks the lie  
shut them out  
it leaves no clue  
your point of view  
we'll never see  
it shuts them out

closing eyes  
it leaves no trace  
your point of view
