DJ Khaled

I would usually scream all over this intro
But I'mma let my friends tell you
We global, we global now, we made it We done been around the world, seen a lot girls, girls
It started off local, now we global
And baby we da best, we da best
We da best, we da best See we do it for the hood
Make it understood, we bought that paper and we global
And baby we da best, we da best
We da best, we da best, we da best Blast through, when I come through
All the pretty women wanna know what it do
Make moves, I break rules
And baby when I leave I want your friend to come too We rich nigga, money make the playa haters sit
Go figure, straight go getta
And when I tell you we da best, it's no lie, we live, it's televised
And if you feel me, put your hands in the sky
Let's make a oath that we never be broke again We done been around the world, seen a lot girls, girls
It started off local, now we global
And baby we da best, we da best
