Two Tribes

Doctor And The Medics

When two tribes go to war
A point is all you can score
When two tribes go to war
A point is all you can score
Cowboy number one
A born again poor man's son
On the air America
I modelled shirts by Van Heusen
Workin' for the black gas, yeah
You know
When two tribes go to war
A point is all you can score
When two tribes go to war
A point is all you can score
Workin' for the black gas
Switch off your shield
Switch off and feel
I'm workin' on lovin' yeah
Giving you back the good times
Ship it out, out
I'm workin' for the black gas
A point is all you can score
When two tribes go to war
When two tribes go to war
A point is all you can score
We got two tribes
We got the bomb
We got the bomb, yeah
Sock it to me biscuits now
Are we livin' in a land
Where sex and horror are the new Gods?
Yeah
When two tribes go to war
A point is all you can score
