

By Myself

Trina

I feel like I'm by myself
I feel like I'm by myself
Out here I'm so alone Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
I don't need you no, no more Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
No pain, no more, no more All my tears and all my cryin'
Nothin' is change 'cause you still lyin'
What you're sellin' I'm not buyin'
Don't you stop me, I'm ready to go I don't need your circumstances
I'll just leave it, take my chances
Tired of playin' in fake romances
Don't you stop me, I'm ready to go You said that you'll be forever truly
How you lied so clearly
You can start over
But you won't be near me Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
I don't need you no, no more Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
No pain, no more, no more Now put yourself in my position
I'm a late-night trickin'
While you home cookin'
I went my dog's right and lookin' Oh, we in the strip club
Throwin' up dozens
When you ask me for some cash
I'm lookin' at you funny I ain't got no money
Baby, I'm broken
I can do you how I wanna
'Cause I pay your card though Remember I've given you the check
I'm the nigga
I got friends so whatever
I understand that you're better You said that you'll be forever truly
How you lied so clearly
You can start over
But you won't be near me Every time I turn around, I see your face, boy

I wish I was by myself
Said, I wish I was by myself
I don't need you no, no more Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
No pain, no more, no more You said that it'll be forever truly
How you lied so clearly
You can start over
But you won't be near me You said that it'll be forever truly
How you lied so clearly
You can start over
But you won't be near me Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
I don't need you no, no more Every time I turn around, I see your face, boy
I wish I was by myself
Said, I wish I was by myself
No pain, no more, no more
